# Hanley Road Street Improvements Project Weekly Project Update

**July 6, 2018**

**The City of Hudson is currently reconstructing Hanley Road from Carmichael Road to State Highway 35. The duration of the project is May 2, 2018 to the substantial completion date of July 27, 2018. Construction includes removals, minor storm sewer, curb replacement, pedestrian ramps, bituminous surfacing, turn lane additions and restoration.**

## **Work Completed for the Week of July 2**

Monarch Paving installed the three medians along Hanley Road, finished the pedestrian ramps, and completed a majority of the restoration work

## **Work Scheduled for the Week of July 9**

Monarch Paving is planning on patching asphalt in front of the medians and milling off the surface of the existing asphalt. After milling Monarch plans to do the structure adjustments to prepare for paving.

## **Traffic Impacts**

During milling and adjustments will require working in the drive lanes. As a result there will be changing traffic control conditions next week.

Hanley Road is anticipated to be narrowed to one lane each direction throughout the duration of the project. The outside lanes will be blocked off for most of the project but there are times that traffic will be shifted to the outside lanes when working on the medians. All access to homes and businesses off of Hanley Road will still be available. Some intersections may need to be closed for periods of time but one access north and one access south will be available at all times. Delays are expected through Hanley Road during the project so other routes (Stageline Road) may be a better route for some residents.

## **Other Notes**

Any irrigation lines that need repairs should be made next week to minimize restoration corrections.

If you have any additional questions or concerns please contact the project hotline at (715) 245-7188.
